## EXPERIENCE

### **LACOE, Best Project, HCM Conversion Team**

**Downey, CA**

*Administrative Specialist III*

*June 2025-Present*

- Assumed Data Analyst responsibilities in assisting with the HCM system conversion for BEST Project.
- Executed scripts in Pentaho Maps to convert and generate configuration workbooks for HCM system loading.
- Utilized SQL queries and scripts to produce error logs, validate data, and perform system updates in the HCM system.
- Leveraged WinSCP and IST system to import, verify, and update information in the HCM system.
- Assisted the BEST Project Team in creating and reviewing district-specific configuration workbooks.

### **LACOE, Applications Development and Support (AD&S)**

**Downey, CA**

*Administrative Specialist II*

*Dec. 2024-June 2025*

- Assisted the Business Intelligence team in constructing and updating Power BI reports to accurately reflect HCM system data
- Deployed various Power BI reports and SQL Server data models to multiple SharePoints and workspaces
- Performed daily checks and updates on various districts/agencies' Power BI reports and data models.
- Developed and updated PowerShell queries to automate everyday tasks and Power BI features.
- Constructed a data dictionary for all data models to aid users in understanding correlations between HCM system and Power BI data fields.
- Utilized RemedyForce to aid users with Power BI related issues.

### **LACOE, BEST Team**

**Downey, CA**

*Administrative Specialist II*

*Oct. 2024-Dec.2024*

- Loaded various HR and Payroll tables to the HCM system using company standard procedures.
- Reviewed and updated various client information within the HCM system to ensure accuracy.

## PROJECTS

### **Itinerary Web Application** [*JavaScript, HTML, CSS, React, Node*]

*Developer*

- Built a web application that allows users to create and manage itineraries to plan trips.
- Developed an interactive map and search page to work with Google Maps API and Locations API.
- Implemented an add-to-itinerary feature for place of interest through the interactive map.
- Assisted in creating a weather tracker that will determine the weather of where the user wishes to visit.
- Nominated for College of Engineering Senior Expo 2023
